All outdoor activities involve some degree of risk. Please, remember that your safety is your personal responsibility; be well prepared for your chosen activity and route. This is a wilderness recreational trail that you use at your own risk.

The Casque Isles Trail is 54 km in length, connecting the communities of Rosspoint, Schreiber and Terrace Bay together. There are incredible vistas from the heights and portions where you trek on the shore of Lake Superior. The main trail is marked with blue markers and access and side trails are marked with white markers.

Voyageur Trail members can access detailed map and GPX track products that contain information such as parking details, elevation profiles, trail lengths, descriptive information for all points of interest, and photos. Please adhere to the Trail Users' Code. Visit www.voyageurtrail.ca for more information.
