VTA Tributes

Dr. Ian Morrison

Dr. Ian Morrison, one of the founding members of the Voyageur Trail Association, passed away in Traverse City, Michigan on March 27, 2013 at the age of 73. Ian assumed the role of General Secretary to the fledgling VTA in the fall of 1973 and was a signatory to the application for incorporation of the Association. He served as General Secretary for two periods: 1973-1984, and again from 1994-1998.

lan's attention to detail was evident in his meeting minutes, making them a work of art that were (and still are) truly a pleasure to read. Besides the minutes, a legacy he left with us is a comprehensive archive of key documents from the early days of the VTA. This record is truly invaluable.

One of his notable achievements during his tenure was to undertake a letter-writing campaign in 1976 to contest the action of the Ontario Ministry of Industry and Tourism to appropriate the name 'Voyageur Trail'. It was in that year that signs began to appear along Highway 17 in northern Ontario with that name. By this time 'our' Voyageur Trail had become firmly established with several trail sections completed between Sault Ste. Marie and Espanola. Immediately recognizing the confusion these signs would pose to hikers, Ian took the lead in pleading the case to anyone of authority who would listen. His efforts were successful, as these signs were quickly removed and no longer appear along the northern Ontario portion of the highway (although you can still see them in the Ottawa Valley area).

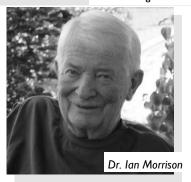

Ian was a kind, gentle, caring man who had a great sense of humour. His contributions to the VTA will live on in our hearts and minds.

Alan Day

Alan Day, former VTA President and long-time member of the Coordinating Council, passed away on July 20, at St. Joseph's Hospital in Elliot Lake. Beloved husband and best friend of Diana, loving father of Julia (Darren) and James.

An active hiker and outdoors man in Elliot Lake, Alan was also the winner of Elliot Lake's Civic Award in 2011. A tireless worker for trails in the Elliot Lake area, he devoted countless hours to the Coureurs de Bois and VTA. He left his stamp on the Cobre Lake Trail and the Westview Park Trans Canada Trail Pavillion, among other projects. Alan will be dearly missed.

Blitzing and kibitzing along the trail by Steve Dominy

Overview of May trail blitz

Dates: May 11-20 (10 days)

km cleared and re-blazed: 36 - Thessalon Section

of volunteer days: 76

Volunteers came forward from Elliot Lake in large numbers and stayed for 2-5 days each, ensuring the success of the trail blitz (a huge thank you to Emily Windle for organizing the teams from the Coureurs de Bois Club). In addition, volunteers from the Sault and Thessalon, and one from southern Ontario, helped out for 1 or 2 days each. Work days averaged 5 hours, plus travel time. The weather cooperated on 9 of the 10 days; on May 12 (Mother's Day) a snowstorm (!) limited progress, although some work was still completed. It's rare to have to scrape snow off the trees to tell if they are blazed!

There were a few trail segments missed during the blitz, but by the time you read this the Thessalon Section will have been fully spruced up, just in time for the start of the trail challenges. The accompanying pictures tell a far better story than these words. A highlight was seeing a couple of skeletons of moose and deer along the trail, likely killed over the winter by wolves.

Here's a shout-out to our two principal sponsors!

In-kind support from Bruce Bay Cottages and Accommodations, and Limberlost Lodge, enabled the comfortable housing of volunteers in Bruce Mines and along Hwy. 129, respectively. Also, Algoma MPP Michael Mantha and his wife Pauline came out on May 17 and worked with us to complete a section of the Thessalon Section near Little Rapids.

Patricia Wynter and Dan Boileau of Little Rapids hosted a small launch event at their home on the morning of May 17. Michael Mantha and Thessalon town councillor Boe Eldner welcomed and thanked everyone. Patricia and Dan also hosted a potluck dinner that evening.

We even had media coverage!

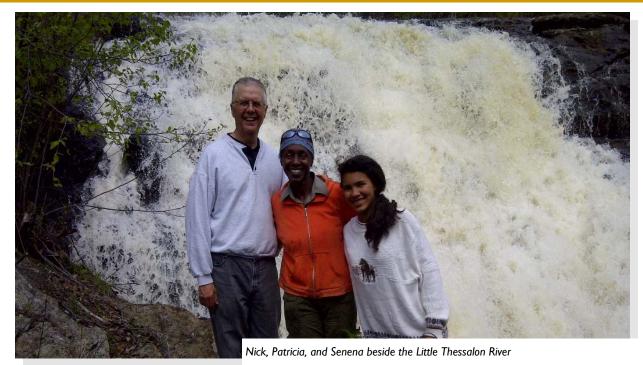

Patricia Wynter included a notice in her column in the Northshore Sentinel. The Sault Star ran an article on the blitz after interviewing Steve Dominy.

We did it again in August

By the time you read this, the Echo Ridges Section will have received a similar make-over. We will have had a potluck at the farm of Jack and Paula Dunning (where some folks will have camped) to launch the second 10-day event. We will have ensured that all our volunteers again were well fuelled up on Clif Energy Bars. We will have cooled off in watering holes like the Echo River and Tower Lake. The Stewardship Youth Rangers will have helped us finish up part of the Thessalon Section for a day. And we will have all had lots of fun!

Carole Blaquiere is challenging all members to hike more than 200km during the 40th anniversary year!! To facilitate this endeavor, she will be leading 14 or 15 hikes between Elliot Lake and Sault Ste. Marie for a total of 240 km. There will be 2 hikes per month starting on August 25th in Elliot Lake. Hikes will generally be between 13 to 18 km where possible and she will be exploring optional opportunities to stay overnight prior to the hike. This will require lots of help and companions. In addition she is going to blog about the experience.

So, who's up for the challenge?!?

VTA Commemorative Blaze and Pencils

In recognition of the 40th anniversary of the Voyageur Trail Association, we've developed our first ever printed 2" x 6" blaze. It's printed on UV-resistant polyethylene with our new logo, the website and the message 'trail adopters welcomed' in blue on a white background (see picture). These are beginning to appear sporadically along the trail. If you do maintenance on the Voyageur Trail and would like a supply of these blazes, please contact Gail Jones at 705-942-0768 or jonesgail@shawl.ca.

We have also had some new VTA yellow wooden pencils produced. If you are planning a special event or doing some promotional activities and would like some pencils, Gail is again the person to contact.

VTA 40th Anniversary Trail Challenges

By now all members should have received in the mail a Hike Record Sheet and information about the 40 km and whole-trail challenges. If you didn't receive it or require another copy, please contact Gail Jones at 705-942-0768 or jonesgail@shaw.ca. New members will receive this with their membership card. This is your opportunity to get out and explore some of the 700+ km of trails you would not normally hike or snowshoe, and win some exciting prizes (we're keeping those a secret for now). In summary, the two challenges work like this:

- 1. Hike and document (on the Hike Record Sheet) at least 40 km of the Voyageur Trail between Aug 24, 2013 and Aug. 24 2014, and
- 2. Contribute to our end-to-end trail challenge, where we strive to have each of the 700+ km of our trail hiked by at least one person during the 12-month period.

Since the trail challenge mailing was sent, Carole Blaquiere has posed a 200 km trail challenge of her own! So, as you will see from the outing schedules, there are plenty of organized hikes and snowshoe activities on our trails for you to choose from. Or, get your friends together and take up the challenge!

Corrections to Hike Record Sheet

Please make the following changes to the Hike Record Sheet.

1. Under the Sault Ste. Marie (Saulteaux) Section, please cross out A3-A4 and A4-A5. As previously announced in the newsletter and on the website, the main trail between the new Walls Lake Loop trail and Creek Rd. has been closed owing to the withdrawal of permission by landowners. You should make a note that the 700 m trail west from Creek Rd. to the lookout (km 12.2 in Edition 4.0 of the guidebook) remains, and is now blue-blazed.

2. Note that in the column 'Your Hike' is where you should record the date of your hike.

VTA Purchases SPOT Satellite GPS Messenger

The VTA is experimenting with the SPOT device for use on outings and work parties that are out of cell phone range. This is a safety precaution, as the device allows the user to send pre-determined messages to family, friends, and emergency contacts. The recipient receives a URL that they can click on to show the exact location of the trail user. We can also track the route and show it on Google Maps. The unit resides with the Saulteaux Club for testing purposes. We will assess this experiment and if deemed a success we expect to purchase this or another satellite technology for each active club.

2013 Mother's Day Hike by Horst Wetzel

Overnight to May 12, 2013, we had received up to 20 cm of snow at our bush lot. The temperature in the morning was 0°C. I looked out the window and thought nobody will come for our yearly hike. Regardless, I was going to be at our starting point at the north end of Goulais Avenue for 10:00 a.m.

I didn't think of the low hanging branches on the 1 km bush road and didn't bring any tools. It took me half an hour to get through to the paved road. I was going down Peoples Road with a big smile on my face, thinking I was going to be home shortly, when my phone rang. It was my daughter-in-law. "Dad, when are you coming down?" It took me a little while to answer. "Where are you?" She said, "We are all waiting here."

When I arrived, there was Doris Welz talking to everyone. She asked me if I had constructed a bridge across the fast creek on top of the falls. I said no. She had checked it recently and didn't think anyone could cross. I said if we could not, we would turn around.

The going was slow but the heavy snow was beautiful. The kids crawled under the low branches to get their pictures taken. When we reached the creek, one of my granddaughters was already on the other side, so we all had to get across. I think the water had gone down since Doris last saw it.

We kept on marching, looking for the white blazes, which were covered by the white snow. On the loop trail around the north end of the golf course, we had no problems since the markers were yellow. Finally, we arrived at our camp. I think everyone was ready to sit down with tea or something. We had no fire outside, but the woodstove inside was a welcome sight. Lise had kept track of the time and said it had taken us about an hour longer. Before we drove out again, my son, Matthew, and I walked in front of the vehicles with a machete and beheaded all the low hanging branches.

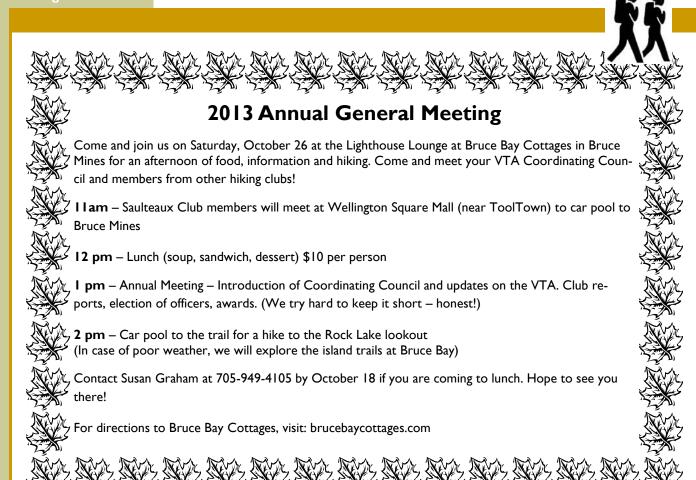

I think it was a beautiful day and we all appreciated kicking off our boots at the end of it. The total number of participants was
