ON THIS ISSUE'S COVER:

The annual Mother's Day hike is a great outing for the whole family, including the little ones. Spring wild flowers, no black flies, and nice weather!

SAULTEAUX CLUB NEWS

WE NEED A NEW PRESIDENT!

Enjoyable as it has been, I must resign my position as Saulteaux Club president due to the fact that I am expecting our first child this summer (bad timing, I know!) Planned house construction this year, too, will ensure a hectic time ahead for Cliff and me. As we do not have a vice-president to step up into the position, our club needs some good-hearted member to come forward and volunteer to take over prior to the end of April. (I will stay on as president until our Annual Dinner April 11.

The position can take as little or as much time as you wish to put into it. I concentrated on planning more social events and a few "different" outings to try and appeal to everyone's

tastes and time constraints; other presidents have concentrated on trail building, hiking seminars, etc. (If you've ever wanted to change the operation of the club, or want to push for a particular event, as president you can do it!)

So, if you think this position appeals to you, please contact me at 949-4105 or Steve Taylor at 759-2480 soon.

While we're on the subject, the club could use a vice-president (duties unknown) and a secretary to take minutes at our few meetings.

Remember - this is a volunteer organization, and only with our members volunteering will the work get done and the club continue.

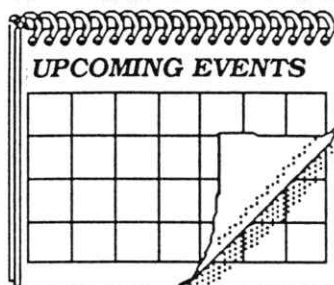

- Susan Graham

TWINNING OF LAKE SUPERIOR AND LAKE BAIKAL

In 1991, a group of people from around Lake Superior visited Russia and journeyed around Lake Baikal. This trip was intended to be part of an exchange program so that North Americans living around Lake Superior and Russians living around Lake Baikal could share experiences from their two environments and maybe learn something from each other.

In 1992, the Russians will be returning the visit. Our own Michipicoten Club will be hosting the Russians while they are in the Wawa area in Late July. They will be in Sault Ste. Marie on April 25-26. More on this in another issue. It should be an interesting summer for those involved.

THE VOYAGEUR TRAIL NEWS is published three times per year. Your articles and submissions are always welcome! Submissions for the Spring 1992 issue must be received by April 15, 1992. Send to Editor, VTA, Box 66, Sault Ste. Marie, Ontario P6B 5L2

SAULTEAUX SECTION

Sat. April 11 - Saulteaux Section Annual Dinner. See last page of newsletter for details.

Sat. Mar. 7 - Late winter ski in the Gros Cap area. An intermediate ski led by Tom Allinson. Meet at Market Mall parking lot, on Second Line side at 10:00 a.m. Bring lunch.

Sun. Mar. 22 - Last ski outing of the season!! Join Tom Allinson and explore the area north of Nettleton Lake where there is always snow to be found late in the season. Meet at Market Mall parking lot, on Second Line side at 10:00 a.m. Bring lunch and spare socks.

Sat. April 25 - "Go-To-Blazes on Earth Day". Everyone come out and join Bill Robinson on our annual trail blazing day. The earlier date this year is to beat those bugs. The work party will head out to the Walls Lake area. Meet at Market Mall parking lot, on Second Line side at 10:00 a.m. Bring lunch, spare socks, and water-resistant boots if you have them.

Mon. April 27 - Saulteaux Section General Meeting at 7:30 p.m. at F.H. Clergue School. Do we have a new president yet? (If no one has volunteered

to this point, there will be a discussion regarding the need to approach likely candidates.) Planning session for the summer and fall. Discussion of VTA business.

Sat. May 2 - Conservation Authority Hike. Meet at Sugar Shack on Fifth Line at 11:00 am. This will be a short (2k), easy fun family hike.

Sun. May 10 - Horst Wetzel leads us to his private hide-away on our annual Mother's Day Hike. Join us for this outing - blue skies always prevail and the fire is always ready for our wiener roast. Hike from top of Goulais Avenue to top of Peoples Road area. Wonderful hike for families. Meet at Market Mall parking lot, on Second Line side at 10:00 a.m. Hot dogs provided by VTA.

Mon. May 25 - Saulteaux Section General Meeting at 7:30 p.m., F.H. Clergue School. Agenda to be decided by new president.

Sat. May 23 - The bugs may be out, but we'll outrun them as we bike from Paradise to Whitefish Point, where the winds off Lake Superior will be sure to keep them away. Meet behind the Greyhound bus terminal in Sault, Ont. at 9:00 a.m. or at the Tourist Information Centre in Sault, Mich. at 9:30 a.m. Cyclists are responsible for transportation of their own bikes. Bring lunch, plenty to drink, and look for Bill Robinson, our leader on this outing.

Mid-Week Skiing

There are some members who quite often ski mid-week (during the day). They mainly do back-country skiing. If you would care to join them, phone Tom Allinson at 942-0768.

REMINDER

Saulteaux Section Annual Dinner

See last page of newsletter for details.

**Saturday
April 11**

PLEASE NOTE

Outing leaders are unpaid volunteers. You are welcome to participate, but you must do so at your own risk. You should be reasonably fit. Always bring appropriate footwear and extra clothing and water (coffee, tea or soup in a thermos is welcome on a cold day). Some of our outings are into relatively remote areas. If you are interested and have any questions, please contact one of the people listed below. Transportation to hike locations from meeting places is by car pool.

Contacts:

Tom Allinson - 942-0768
Steve Taylor - 759-2480
Susan Graham - 949-4105

VTA PARTICIPATES IN COMMUNITY CLUB AWARDS

If you are a member of the Voyageur Trail Association living in the Sault Ste Marie area, please read and consider this announcement carefully.

The Voyageur Trail Association has been registered in the Community Club Awards program (CCA). CCA operates in many cities to promote local businesses and volunteer organizations. The result is publicity for the businesses and a flow of money from the businesses to the volunteer organizations. CCA requires a host sponsor in each community. In Sault Ste Marie, radio station CKCY has agreed to host the program, and will contribute a lot of work. The VTA has the opportunity to obtain several hundred dollars (realistically out of a pot of over \$10,000) for very little effort.

Turn in to Donna Weeks or Steve Taylor (759-2480, 63 Hugill St) purchase receipts from participating organizations. You can go back to October 17, 1991 and up to April 15, 1992. The sooner you turn your receipts in the better. Photocopies of receipts or credit card purchases are acceptable. Dollars in purchases are converted to points (100 points for a dollar). Many of the businesses offer additional ways to earn points (bonus points for purchasing certain products or shopping at certain times). Booklets explaining the point system can be obtained from Steve Taylor.

Participating businesses are:

Arrow Plumbing
Bandito Video
Bennardo Jewellers
'92 CKCY
Capital Warehouse
Carricato Funeral Home
Churchill Plaza
Designer's Fashions
Ferroclad Seafoods
Reyco Automotive
Flower Junction
Foremost Pet Foods
Great Lakes Graphics
Maple Leaf Motors
McBride's Carpets
Ron's Outdoor Store
Sault College
The Ski Specialist
Wardlaw Fuels

So keep your receipts from these

places and turn them in at your earliest convenience up to April 15 and help the Voyageur Trail Association earn points, and hopefully some money.

***Have you seen
any of these
around? There
have been
frequent
sightings of
Great Gray
Owls in the
area this year.***

TRAIL MIX

Steve Taylor noted on a recent trip to Australia that the Aussies have come up with an interesting solution to the problem of erosion caused by hiking trails.

In Mount Kosciuszko National Park, footpaths were being worn into fragile alpine meadows by hikers. Five kilometers of trail was made from raised steel grates. This trail was extremely easy to walk on, and you would never get lost. If the Voyageur Trail Association can come up with a large amount of funding from somewhere, Algoma Steel would have a major contract to supply grating to stretch from Manitoulin Island to Thunder Bay. One person did point out a problem with this metal trail. It seems that it is a bit dangerous in electrical storms.

Many of us have always viewed membership in the VTA from the social aspect. Aside from enjoying our beautiful trail, many of us take the opportunity to meet and make new friends. I guess it worked for two of our members. Betty Nassoioy tells us that MAUREEN DELANEY and JOHN LEHMAN tied the knot on December 27, 1991.

Hike Ontario has opened its Walking Centre in Toronto and has appointed Geoffrey Dewar as Executive Director. With the official opening on Jan 2, Hike Ontario can now more effectively be a focal point for enquiries about walking and hiking in the province. Hike Ontario is the umbrella organization for long distance trails in Ontario, and these two recent developments will probably result in direct benefits to the Voyageur Trail Association, especially in terms of publicity outside of northern Ontario. Funding came from the Ministry of Tourism and Recreation and from the Richard Ivey Foundation.

The Voyageur Trail will be closed on April 6, 1992. We have to do this once every year. We are told that we must do this one day a year so that our landowners maintain legal control of the land along the trail.

Another recent phenomenon in our club has been how many of our members have decided to increase the membership by CREATING new members. Vince Nealis and Liz Hansen have added two new members in the past five years, Colin and Madelaine. Darcy and Fiona Ortiz added Hillary in May of 1991 while the former Saulteaux Club President Steve Dominy and his wife Karen Zhou gave birth to Leah Feng four days after Hillary Ortiz's arrival. The most recent addition was Elyse, a daughter for former Newsletter Editor Guy Smith and Ellen McCarthy, who became an official member on February 3. The newest member in the making will be compliments of the current Saulteaux Section President, Susan Graham and her husband Cliff. Congratulations to all our members and their truly unique membership recruitment.

TRIP REPORTS

SHAW DAM OUTING

Twas on a bleak Saturday morning when seven hardy (foolhardy??) members met at the Churchill Plaza. Their objective, a hike on the Voyageur trail from Shaw Dam to the Chapleau highway.

Because the trail was very wet we decided to start at the Shaw Dam and hike east until the trail got just too wet. We had a coffee stop at Bobbers in Bruce Mines and arrived at Shaw Dam about 11:00 am.

We hiked about 2k, mostly along a bare rock ridge to a high point with a 360 degree view (on a good day) and down to a swamp where we turned around. After doing a little bushwhacking we built a fire and had lunch by a small lake created by a beaver dam. No sightings, however. After lunch we explored around Shaw Dam lake a bit.

On our way home we took a little side trip to view the largest pine tree in Ontario. This pine is off the Shaw road a few kilometers south of Dunns Valley.

Another coffee break at Bruce Mines and we were in fine shape to make out way home.

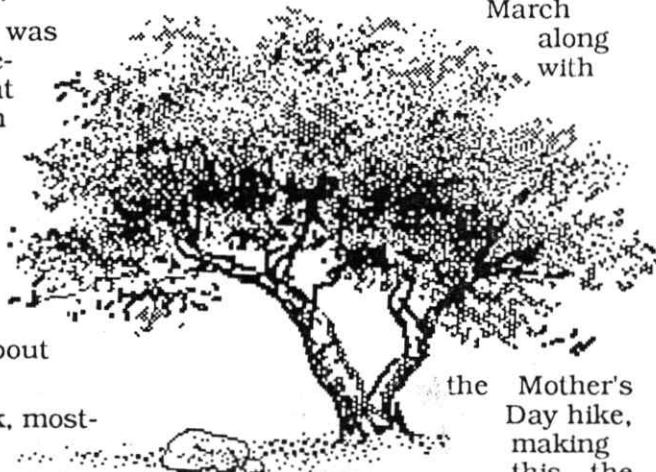

All in all a fine outing in spite of the snow squalls and wind!

--Tom and Gail Allinson

NEW YEAR'S CELEBRATION ON THE LAKE

Ten hikers got together outside the Red Lobster on Dec. 31st to end the year's outings with a gala snowshoe trip. Originally it was to take place in the Mile Hill area, but insufficient snowfall forced a relocation. Our new location to snowshoe was Nettleton Lake west. The Nettleton-Camp Korah area is a favorite spot for VTA hikes and activities, including two ski outings in

March
along
with

the Mother's
Day hike,
making
this the

fourth outing in

this location for 1991.

Once we arrived, Patrick Capper, Susan Graham, and Betty Nassoioy shuttled vehicles on Maki Road (East Trail crossing) returning back in Pat's truck. We set off from Camp Korah on the VTA trail heading west.

Oscar Garcia, who came from El Salvador last year, seemed to have adapted to our much colder climate remarkably well. We also had another visitor, Lynette, who came from Britain for a visit during the Christmas holidays.

We called lunch at East Davington Creek. Seats were improvised using snowshoes except for Bill and I who brought our own in our backpacks. Once finished eating we crossed the creek.

The crossing was a bit treacherous as the bridge had a few gaps between the logs. Betty slipped through a gap, dropping her snowshoes on the thin ice. After extricating herself, she somehow had to get them back. The ice was too thin to walk on, so she tried to fish them off with a ski pole, nearly taking an icy plunge in the process.

Just before leaving the creek Susan announced that she will soon have a new addition to her family, a baby expected in July after sixteen years of marriage, as well as an addition to their house, to be build this summer.

There were a few fallen trees across the trail and some brush choking it. It seems that Pat is always armed with pruning shears and a bow saw, as he deployed them at these obstacles.

The snowmobile trails that cross the VTA trail are almost as fancy as the Kinsmen ski trails with state-of-the-art grooming equipment, directional signs, and orange blazes. We didn't see any snowmobilers, but one trail did give us trouble. The grooming and heavy traffic created tall snowbanks which we had to climb over, resulting in several broken snowshoe binding. Fortunately we were approaching Maki road and could make the rest of the hike on the packed snow of the trail without snowshoes.

The hike concluded at Maki Road where Betty and Cliff Graham shuttled us back to Nettleton Lake. Other than the few minor mishaps we really enjoyed our hike and look forward to another snowshoe trip at Thayer's Acres on Jan. 19 and at Glenview Cabins area west on Feb. 16.

Special thanks to Patrick for this snowy version of a New Year's celebration.

-Pim Delfgou

EDITOR'S REPORT

ELLIOT LAKE

The Coureur de Bois section of the VTA sponsored the October meeting of the VTA, including an afternoon hike. Since Pim and I are not members of the executive, we took the opportunity to explore the VTA trail around Elliot Lake while the executive met in the morning. Very nice trail (although the weather was dreary) with lovely scenery. The trail crosses a new logging road near the highway, which has a few pitfalls for the unwary, mostly deep mud. We took a side trail up to a small lake and waded through the beaver swamp at the wet end, took some pictures, and returned to Elliot Lake in time to go on the afternoon hike.

The "big" hike on the agenda followed the new ski trails and the downhill ski area at Elliot Lake -- quite an extensive set of trails, which seem just a bit longer on foot than on skis! Downhill slopes are REALLY interesting with no snow on them!

The trails are very well marked, and meander amongst the remains of a considerable amount of mining activity, including a toxic lake (very pretty blue) and a log drain pipe. We climbed up the steep hill to the new visitor's center and old fire tower, which provide a very nice over-view of Elliot Lake and surrounding area. The trail follows the top edge of the cliff for a distance, giving a nice view of the "toxic" lake at the bottom.

This was a strenuous hike, especially for some new members who had not done much hiking before. At least my new boots were fabric, so I did not get blisters!

After we all collected back at

The VTA Newsletter has two new editors. We are sharing the duties, at least for the time being, and look forward to continuing the excellent quality of the Newsletter.

We encourage any and all submissions, outing reports, news, recipes, etc. for inclusion in the newsletter. It is possible to submit materials "on disk" as long as the text is in WordPerfect format or DOS text (ASCII). Written materials are fine, too! Photographs for the cover are also needed on a continuing basis. Line art is also welcome.

-Peter Frederick and Pim Delfgou

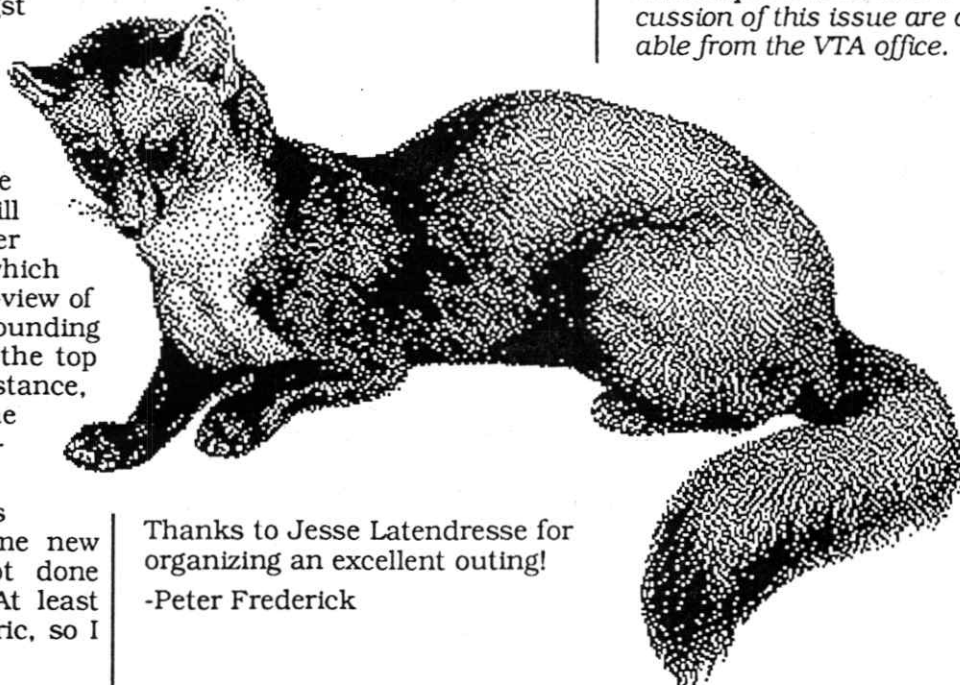

the cars (some of us took some wrong turns and hence the long way back!) we returned to the school where we originally gathered and had an excellent pot-luck dinner, had a local VTA club meeting, and saw the VTA slide show.

The outing was superb, the company the finest, and the weather almost cooperative -- the rain started just as we finished the hike!

RAILS TO TRAILS WRITE-IN CAMPAIGN

There is a movement afoot to encourage (or convince?) the province to convert abandoned rail lines to hiking trails. Letters to Premier Bob Rae's office, involved Ministers, and MPPs will help make the conversion of these abandoned rail lines to trails possible -- your help is needed! Addresses, sample letters, and a discussion of this issue are available from the VTA office.

Thanks to Jesse Latendresse for organizing an excellent outing!

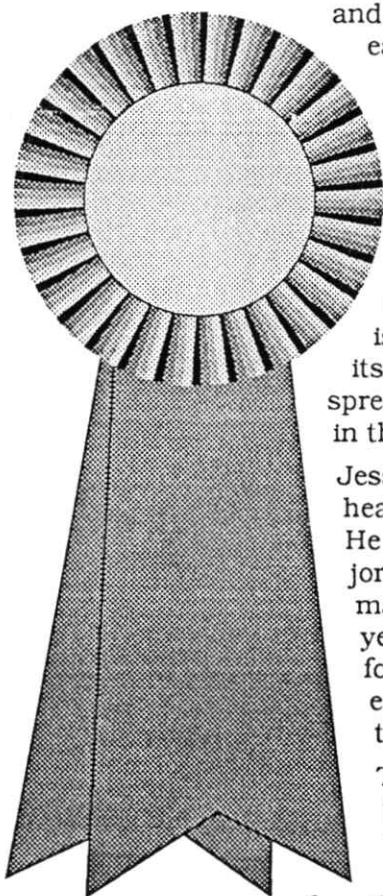

-Peter Frederick

VOLUNTEERS AND FUNDING SOURCES WORTHY OF RECOGNITION

1991 was a busy year for the Voyageur Trail. We received funding for trail improvements in the Coureur de Bois Section (Elliot Lake) and in the Casque Isles Section (Terrace Bay to Rainbow Falls) and for computerization and updating of our landowner files. The funding for these sources was obtained under the title Summer Project 1991. It appears that Summer Project 1991 was a success and the sources of funding plus the work of several volunteers must be recognized.

At the October Annual Meeting, the Board decided to recognize the work of three volunteers.

Peter Stinnissen has been instrumental in obtaining funding for several projects over the past few years. He has also helped orchestrate the work done over the past two years in the Casque Isles Section. Pete has demonstrated once again that he is a key person in the Voyageur Trail Association.

Peter could not be in Terrace Bay all summer, and in the past year there were some early problems created by inadequate supervision. Lorne Bourke has always held a keen interest in the trail here and has put in a lot of work. This summer, he put in a huge effort towards helping to keep this project on track. Keep up the good work Lorne. The trail in your area is continuing to improve. Word of its spectacular nature should spread so that many people will use it in the future.

Jesse Latendresse took the project to heart in the Coureur de Bois Section. He put in many hours and was a major reason why this project was a major success. Over the past few years, this trail has become a 'must' for anyone looking for a 3 day wilderness backpacking trip. Keep up the good work Jesse.

There are others worth mentioning. Pete King has helped in the Casque Isles Section. Jack Smit has always been on the go for the trail around Elliot Lake. Steve

Taylor wrote some of the proposals, worked on the final reports, and oversaw much of the summer work.

The Corporation of the City of Elliot Lake, the Corporation of the Township of Terrace Bay and the Sault and Region Conservation Authority all sponsored some of the work done last summer. Their contribution was required for the project to succeed.

Funding came from three sources. Most of the labour funding came from the Ontario Government's Youth Corps Program. Mountain Equipment Co-operative provided much of the operating budget and funding to hire Tim Yanni for the landowner records and trail descriptions. Remember this as you stroll amongst the fine outdoor gear in MEC's Toronto, Calgary or Vancouver outlets. Also notice the amount of MEC gear on any Voyageur Trail Outing.

The remainder of the funding for the operating budget and for the Landowner records update came from Shell's Environmental Fund, which has provided funding for a number of projects promoting environmental awareness and friendliness throughout the country.
